Everest — your next-generation enterprise resource planning solution

Everest is a robust and scalable ERP business management solution that includes multi-currency and integrated email capabilities. It can automate all departments — including accounting, inventory control, service, eCommerce, sales force automation, CRM, point-of-sale, wireless connectivity, and more — all in real-time.

✦ Everest CoPilot

Everest CoPilot is a personal assistant powered by genAI that provides users with risk monitoring and faster, easier reporting. Rather than spend time building contextual reports, business stakeholders can ask natural language questions of Everest CoPilot and receive detailed insights on financial performance, inventory trends, sales projections, and more.

Why choose Everest?

- **Automate routine business functions:** free up your team from the day-to-day. Everest automates routine tasks, allowing managers and decision-makers to channel their focus on strategic planning and growth.

- **Make informed decisions:** be at the forefront. With Everest, you have access to relevant, time-critical information right when you need it. Make decisions backed by real-time data, ensuring your business remains agile and responsive.

- **Comprehensive departmental automation:** more than just an ERP solution, Everest is a holistic business management tool. Experience real-time automation across all departments - from accounting, inventory control, and service to eCommerce, sales force automation, CRM, and point-of-sale.

- **Versatility for various business models:** whether you're in retail, wholesale, distribution, eCommerce, mail order, or service, Everest is tailored to fit. Its expansive capabilities make it the go-to ERP solution for cost-conscious businesses looking for an edge in their operations.

Everest's key features:

- **Multi-currency capabilities:** seamlessly handle transactions in various currencies, making global business operations smoother.

- **Integrated email:** streamline communication with an in-built email function, keeping your team updated and in sync.

- **Real-time automation:** experience the power of instant updates as Everest automates workflows across all departments, from inventory control to CRM.

- **Wireless connectivity:** stay connected on the go. Access critical business data from anywhere, ensuring that you're always in the loop.
